# PROBLEM STATEMENT

**In today's digital era, having a Personal online presence is essential. A static resume is not enough to show case skills and Achievements .Therefore ,there is a need for a portfolio website Where certificate, projects, and contact information can be easily displayed in an attractive manner.**

# PROJECT OVERVIEW

**This project is a personal portfolio website built using HTML, CSS, and Java Script. It contains a hero section for introduction, an about section for personal details , a certificate section where users can upload and view achievements, and a footer with contact details The website is responsive and user-friendly.**

# END USERS

1. **Recruiters & Interviewers:** It is quickly evaluate skills, achievements, and certifications.
2. **Peers & Colleagues:** Collaborate and connect professionaaly.
3. **General Audience:** Anyone interested in learning more about your skills and carrer journey.

# TOOLS & TECHNOLOGY

- **HTML5** – For styling, layout, and visual design.
- **CSS3** – For styling, layout, and visual design.
- **Java Script** – For interactivity and dynamic certificate uploading.
- **Local Storage** – To store and retrieve uploaded certificate images.

# FEATURES & FUNCTIONALITY

- **Hero Section** – Introduction the user with name, role, and buttons.
- **About Section** – Gives a short description of background and buttons.
- **Certificate Section** – Allow uploading images dynamically using JavaScript.
- **Interactive Design** – Hover effects, animations, and responsive layout.
- **Footer/Contact Section** – Provides email, phone, and LinkedIn for communication.

# RESULT & SCREENSHORTS

The final portfolio is an attractive , interactive, and professional – looking website. It successfully displays certificates, adapts to different screen sizes, and allows users to save and revisit uploaded achievements. The UI is clean modern, and easy to navigate
